## Education

**Shri Ram Swaroop Memorial University**

*Bachelor of Computer Applications*

**Sep. 2023 – May 2026**

*Lucknow, Uttar-Pradesh*

## Relevant Coursework

- Object-Oriented Programming (OOP)
- Computer Networks
- Git & GitHub
- Backend Development
- SQL & Database Design
- Web Development
- Operating Systems
- REST API Development
- Frontend Development

## Experience

**iEnergizer IT Services Private Limited**

**May 2018 – August 2023**

*Senior Executive, Customer Service Operations*

*Noida, Uttar Pradesh*

- Provided L1/L2 technical support by troubleshooting application launch failures, application freezes, login, and software-related issues for US and UK customers.
- Performed basic SQL queries and data validation to analyze errors, verify records, and support issue diagnosis.
- Logged, tracked, and resolved incidents using CRM, ERP, and ticketing systems while ensuring SLA compliance.
- Collaborated with QA and development teams to escalate complex issues, validate fixes, and maintain support documentation.

## Projects

**Personal Portfolio Website** | *ReactJS, TypeScript, HTML5, CSS3, Bootstrap, JavaScript, Git, GitHub* [Source Code](#) **July 2026**

- Developed a responsive portfolio website to showcase technical skills, projects, certifications, and work experience.
- Implemented dynamic animations, smooth scrolling navigation, and interactive UI components using ReactJS and TypeScript.
- Optimized performance, accessibility, and mobile responsiveness to provide a seamless user experience.

**ScholarHub Learning Platform** | *ReactJS, TypeScript, Vite, Tailwind CSS, Git, GitHub* [Source Code](#)

**July 2026**

- Designed and developed a modern educational platform featuring course navigation, study materials, and mock test modules.
- Built reusable React components with responsive layouts and smooth UI animations using Tailwind CSS and Framer Motion.
- Implemented scalable project architecture using React, TypeScript, and Vite for maintainability and performance.

**Weather Application** | *HTML5, CSS3, JavaScript, REST API, Git, GitHub* [Source Code](#)

**June 2026**

- Developed a weather forecasting application using REST APIs to display real-time weather information.
- Implemented city-based search, responsive design, and dynamic weather updates with JavaScript.
- Enhanced user experience through clean UI design and efficient API integration.

## Technical Skills

**Production & Technical Support:** Incident Management, Application Troubleshooting, Technical Troubleshooting, Root Cause Analysis, SLA Management, L1 Support

**Networking:** Basic understanding of Computer Networks (TCP/IP, UDP, DNS, NAT, Port Forwarding, HTTP/HTTPS)

**Software Testing:** Basic knowledge of SDLC, STLC, Manual Testing, Test Case Design, Test Execution, Defect Life Cycle, Bug Reporting

**Operating Systems:** Windows, Linux Basics, Command Line Interface (CLI)

**Web Technologies:** HTML5, CSS3, JavaScript, .NET Fundamentals, REST APIs, Chrome DevTools

**Collaboration:** Microsoft Teams, Slack, Google Workspace, Google Calendar

## Leadership / Extracurricular

- Passionate traveler with experience exploring different cities and cultures, enhancing adaptability, communication, and problem-solving skills.
- Actively engaged in self-learning of technology, SaaS products, ERP systems, and customer support tools through online courses and hands-on practice.
- Created educational and digital content using Canva, PowerPoint, and video editing tools for learning and community engagement.
- Participated in team-based projects and collaborative activities, developing leadership, coordination, and interpersonal skills.
